SUMMARY

I aim to achieve excellence in working as a dynamic professional offering solutions to businesses using the best available, where my analytical ability and analyzing quest are used maximum for the growth of the organization and to grow with the organization. Seeing a challenging position in a well-established company that offers professional development and ample opportunity to learn and enrich my professional competencies.

PROJECTS

Tailor Connect

Project Link: <https://github.com/Rahull012/tailorconnect.git>

Developed "Tailor Connect," a web application that connects users with nearby tailors, leveraging ReactJS for the front end and Node.js and Express.js for the back end. The app utilizes Google Maps API to implement location-based features, allowing users to discover and connect with local tailors easily. User and tailor data are managed with MongoDB, ensuring a seamless account creation and profile management experience.

Meter to Sim Messaging Technology

Project Link: <https://github.com/Rahull012/metertosim.git>

Household electricity consumption is increasing rapidly, leading to high customer charges. To save money and avoid fraud, our affordable meter-to-SIM messaging technology connects to the existing meter, using Arduino and a Wi-Fi module to send monthly consumption and bill information to users' phones in their preferred language.

Morse Code Translator

Project Link: <https://github.com/Rahull012/morse.git>

Built a responsive Morse Code Translator web app using HTML, CSS, and JavaScript, which translates English to Morse code and vice versa. Showcases expertise in front-end development and JavaScript string manipulation.

EDUCATION

Bachelor Of Technology , Computer Science & Engineering	<i>Dec 2021 - Apr 2025</i>
CMR College of Engineering & Technology	GPA: 8.36
Intermediate , MPC	<i>Jun 2019- May 2021</i>
Narayana Jr College	Percentage: 91.8
Secondary School , SSC	<i>Jun 2018- May 2019</i>
Bhashyam High School	GPA: 9.5

SKILLS

Web Technologies: HTML, CSS, Javascript, NodeJs, Express Js, React Js, Typescript

Database: MYSQL, MongoDB

Programming Languages: C, C++, Java, Python

Coding Platforms: [leetcode](https://leetcode.com/), [hackerrank](https://hackerrank.com/), [codechef](https://www.codechef.com/)

ACHIEVEMENTS & ACTIVITIES

- I am certified in the Complete Fullstack Development Bootcamp 2024 on Udemy.
- Participated in the Accenture Innovation Challenge and Qualified for the second round
- Participated in JNTU Codethon
- Participated in the CBIT Hackathon
- I am a member of NSS and organized Blood Donation Camps.
